## INDEX OF SUBJECTS

Subject entries are made for all articles; BOOK REVIEWS, however, are listed only under this heading. The name of the author, in brackets, follows the subject entry. Matter pertaining to societies is indexed under the individual society name.

**Abdomen**

surgery, anesthesia for urgent intra-abdominal surgical procedures in patients with cardiovascular disease [Johnson & Livingstone], 150

**Acetylcholine**

effects of, on lactation in guinea pigs, rats and humans [abstract], 708

**Adrenalin: see Epinephrine****Airway: see under Apparatus****Allergy**

phenomena, study of effect of procaine intravenously on histamine and [abstract], 706

**American Board of Anesthesiology**

directors elected, 10

notice of examinations, 41

**American Medical Association**

Section of Anesthesiology, Scientific Assembly, notice of joint meeting, 245

**American Society of Anesthesiologists, Inc.**

notice of annual meeting, 145, 230, 415, 465

program, annual meeting, 479

refresher courses, 346

summary of proceedings of House of Delegates, 573

**Amphenone B**

Intravenous, surgical anesthesia in rabbit and dog with [abstract], 330

**Analgesia: see under Anesthesia; Pain, relief of****Anesthesia: see also under names of specific agents and procedures [abstract], 444**

aspiration of foreign body during [Masilionis & Malia], 213

balanced, modern concept [Little & Stephen], 246

block, brachial plexus, pneumothorax incidence following [Moore & Bridenbaugh], 475

cardiac output, determination of, by dye dilution method, modification, comparison with Fick method, application during [Etsten & Li], 217

central nervous system and [Sonnenschein], 19

choice, in general practice [abstract], 330

controlled inhibition of autonomic nerves [abstract], 110

cyclopropane, electrocardiographic effects of intravenous administration of neostigmine and atropine during [Jacobson & Adelman], 407

cyclopropane, and ether, cardiovascular effects of continuous intravenous infusion of norepinephrine, epinephrine and neosynephrine during [Deterling & others], 11

deaths [Burnham], 544 [editorial], 559

dental (office), nitrous oxide, oxygen and trichloroethylene for [Bergner & others], 696

drugs and techniques, influence on intracranial tension [Stephen & others], 365 electroconvulsive therapy, anesthesia for [Steven & others], 623

endobronchial, connector for [Beer], 106

endotracheal, in children [Pender], 495

equipment "carry all" (inexpensive) [Gross], 439

equipment kits [Briggs], 323

ether, and cyclopropane, cardiovascular effects of continuous intravenous infusion of norepinephrine, epinephrine and neosynephrine during [Deterling & others], 11

hypertension during, in patients with spinal cord injuries [Ciliberti & others], 273

induction, simple aid for, in children [Stephen & others], 214

inhalation, massive bilateral pulmonary atelectasis during [Tesoriere], 571

intra-abdominal (urgent) surgical procedures in patients with cardiovascular disease, anesthesia for [Johnson & Livingstone], 150

intravenous barbiturates, effect of azotemia upon action of [Dundee & Richards], 333

labor, trichloroethylene analgesia in general practice [abstract], 708

management, cessation of circulation in general hypothermia [Zeavin & others], 113

management during surgical treatment for pheochromocytoma [abstract], 331

nonbreathing method, use [Baumgarten & Betcher], 188

pediatric, inexpensive "homemade" valve for nonbreathing technique [Smith], 107

pre-anesthetic medication [abstract], 709

problems in tracheal reconstruction [Stephen & others], 206

procedures, circulation during [editorial], 700

- prolonged (seven, eleven and fourteen days) [Ansbro & others], 569
- recent developments in British Isles with particular reference to induced hypotension [editorial], 103
- regional, role of antihistaminic drugs in [Stephen & others], 601
- regurgitation and aspiration (silent) during [Berson & Adriani], 644
- spinal analgesia, for translumbar aortography [Feldman & others], 66
- spinal, concentration of pontocaine hydrochloride in cerebrospinal fluid during, influence of epinephrine in prolonging the sensory effect [Converse & others], 1
- spinal, multiple autoclaving of drugs use in [Carter & others], 480
- spinal, prevention of cranial palsies following [Greene & others], 302
- spinal, role of antihistaminic drugs in [Stephen & others], 601
- spinal, survey from 1949 through 1952 [Grady], 310
- spinal, use of aramine® as pressor agent during [Poe], 547
- succinylcholine, dose response relationship and duration of action, in [Espinosa & Artusio], 239
- surface agent, tronothane® [Peal & Karp], 637
- surgery (minor), trichloroethylene analgesia in general practice [abstract], 708
- oral, use of trichloroethylene and thiamylal sodium as adjuncts to other anesthetics in oral surgery [abstract], 708
- surgical, in rabbit and dog with intravenous amphenone B [abstract], 330
- thiopental, automatic electroencephalographic control of [Kiersey & others], 356
- thiopental, effect of sodium succinate and some of its derivatives on [Giarman & others], 122
- topical, an objective method of evaluating, utilizing laryngeal reflex, effect of methylcellulose, triton A-20, and hyaluronidase [Clark & others], 161
- topical, reflex circulatory responses to tracheal intubation performed under [King & others], 231
